

---

**Please nominate an employee (with an associated project) for the BuildSmart NY Facility Star.** NYPA would like to recognize the innovative projects being implemented as part of BuildSmart NY, with a particular focus on the employees that deliver them. Each month, we will showcase a BuildSmart NY Facility Star on our website to give these projects and people the recognition they deserve. Projects should be focused on operations and maintenance initiatives or minor facility upgrades (i.e. simple retrofits). Ideal projects will be replicable, scalable, cost-effective, and reduce energy consumption. (Please include photographs of the employee/team if these are readily available.)

**Project/ Employee Name(s):** Indicate Job title and general areas of responsibility including length of service.

**Location:** Please describe the building type and the nature of operations at the facility.

**Project Description:** Briefly describe the project and the implementation process. Include any challenges that were overcome and solutions to project implementation, highlighting any lessons learned.

**Project Budget:** Please include if applicable

**Estimated Cost Savings:**

**Estimated Energy Savings:**
