

Below is a list of EH&S programs with training requirements that commonly apply to college campuses.

- This is not a complete list of OSHA training requirements.
- Not all campuses are required to training in each programs.
- Most of the programs also require written compliance plans and/or certifications. (Noted with *)
- Repeat training is generally when workplace conditions have changes, or there is a recognized need for re-training. If a specific time period is indicated, it is noted below.
