MISSION STATEMENT

To insure an adequately sized and well trained health care workforce to meet the future needs of communities in an evolving health care system through partnerships, advocacy, and education.

WORKGROUPS

- Evaluation and Access to Data
- Job Bank
- Regional Collaborative Project
- Medical Students and Residents
- Allied Health Professionals
- Telemedicine

EVALUATION AND ACCESS TO DATA

To focus on evaluation activities of physician placements in existing workforce initiatives

(Doctors Across New York, National Health Services Corps, Conrad 30)

JOB BANK

Create a statewide healthcare job bank and identify ways in which to make meaningful placements for health care professionals.

REGIONAL COLLABORATIVE

Advance the concept of convening public-private partnerships that bring together diverse stakeholders in health care markets across the state to assess local needs and contribute towards coordinated area strategies for physician recruitment and retention.

MEDICAL STUDENTS AND RESIDENTS

Focus on how to:

- Identify individuals who are interested in careers in medicine and are interested in practicing in underserved communities
- Identify more mentoring programs for students and residents
- Enhance primary care focus in medical schools

ALLIED HEALTH PROFESSIONALS

Identify which allied health professions are experiencing shortages and identify ways in which these professionals can be enhanced.

TELEMEDICINE

Study and engage in new opportunities for telehealth/telemedicine.
