

## Right Professionals in the Right Places Healthcare Workforce Planning Meeting May 15, 2014

### Breakout Group Discussion Questions

- How are current or changing:
  - population demographics;
  - models of care, i.e., medical home; and
  - health behaviors, health outcomes, and health statusesaffecting the present and future needs for specific health care professionals?
- Is the educational pipeline, especially SUNY, meeting your current workforce needs? If not, what needs to be improved?
- Are health professionals entering the workforce with the skills necessary to get the job done? If not, what needs to be improved?
- What do you believe are the future health care workforce needs (training, skills, and credentials) that SUNY and other educational institutions will need to respond to?
- Should the direction of educational models change as we shift to more emphasis on primary care in ambulatory settings?
